2021 Highlights

We closed on \$12 billion of large-block reinsurance agreements, including our previously announced transaction with American Equity Investment Life Insurance Company ("AEILIC"), to reinsure up to \$10 billion of long-dated annuities which closed during the fourth quarter

Our pension risk transfer business ("PRT") had its most active year to date, closing 26 transactions, representing over \$1 billion of premiums

We entered into a definitive agreement to acquire American National Group, Inc. (NASDAQ: ANAT) ("American National"), a key milestone towards achieving our strategic objective of expanding our U.S. operations

Subsequent to year end, we completed the purchase of an additional 6,775,000 shares of common stock of American Equity Investment Life Holding Company (NYSE: AEL) ("AEL"), bringing our total equity interest in AEL to approximately 16%

Operating Update

Our Canadian PRT business successfully closed on seven transactions during the quarter, bringing the total of new business to over US\$1 billion for the year, and representing approximately 20% of the Canadian market in 2021.

On October 8, 2021, we closed our previously-announced transaction to reinsure up to \$10 billion of annuity products issued by AEILIC, including approximately \$4 billion of in-force policies. During the fourth quarter we recorded additional flow business of approximately \$400 million under such agreement.

We recognized \$21 million and \$30 million of distributable operating earnings for the three and twelve months ended December 31, 2021, respectively. Distributable operating earnings was primarily driven by strong earnings on our PRT business and contributions from our investment in AEL. We have made significant progress deploying the assets received on the closing our recent reinsurance transactions and expect distributable operating earnings from our reinsurance treaties to grow in the coming quarters as the assets received from our recently closed reinsurance transactions benefit from the deployment into our higher-yielding investment strategies.

We recorded a net loss of \$43 million and \$44 million for the three months and twelve months ended December 31, 2021, as positive income related to our insurance operations was more than offset by unrealized losses on our corporate hedging activities, as well as corporate operating costs associated with the build out of our business.

Update on Growth Initiatives

In early January, we completed the purchase of an additional 6,775,000 shares in AEL, for approximately \$253 million, bringing our total ownership in AEL to 16%. The purchase of this additional equity interest, coupled with our significant reinsurance arrangement, position us as a cornerstone investor and a key reinsurance counterparty. We look forward to supporting AEL's leadership team in their continued growth of the business.

Our acquisition of American National, which remains on track to close in the first half of 2022, will provide us with licenses in all U.S. markets and will substantially increase the scale of our insurance operations. Once the American National transaction closes, we will have approximately \$45 billion of assets under management and a path for significant continued growth.

Regular Distribution Declaration

The Board declared a quarterly distribution of \$0.14 per share, payable on March 31, 2022 to shareholders of record as at the close of business on March 16, 2022. This dividend is identical in amount per share and has the same payment date as the quarterly distribution announced today by Brookfield Asset Management Inc. ("Brookfield") on its Class A limited voting shares ("Class A Shares").

Brookfield Asset Management Operating Results

An investment in the class A exchangeable shares of Brookfield Reinsurance is intended to be, as nearly as practicable, functionally and economically, equivalent to an investment in the Class A Shares of Brookfield. A summary of Brookfield's 2021 fourth quarter and full year operating results is provided below:

Given the economic equivalence, we expect that the market price of the Brookfield Reinsurance Class A shares will be impacted significantly by the market price of Brookfield's Class A Shares and the business performance of Brookfield as a whole. In addition to carefully considering the disclosure made in this news release in its entirety, shareholders are strongly encouraged to carefully review Brookfield's letter to shareholders, supplemental information and its other continuous disclosure filings.
